

Unlock your home ownership possibilities with Manulife Bank Select[®]

So, you're looking for your *first home*. There are likely hundreds of considerations on your mind from location to budget, but with Manulife Bank Select, your mortgage doesn't have to be one of them. It goes beyond fixed and variable rates, allowing you to have both. Bonus? You get a high-interest bank account too.

What exactly is Manulife Bank Select and how do you know it's right for you?

Manulife Bank Select is an integrated approach to managing your mortgage and day-to-day banking. It brings together a customizable mortgage with a high-interest rate chequing account, **giving you:**

Fixed and variable rate options in the same mortgage

- The option to customize your mortgage into more than one fixed term. Wondering if rates are going up or down? You can have both longer and shorter terms in the same mortgage to help you better adjust to changes in rates.

A high-interest rate chequing account

- Deposit your income directly into your high-interest rate chequing account and start earning interest immediately, potentially putting more money in your pocket compared to a traditional chequing account.
- **Tip:** Use your high-interest rate chequing account to pay your home expenses like property taxes, water, gas and electricity bills or use it to put money away for a roof repair or renovation.

Manulife Bank Select might be *right for you* if you:

- Want the power to choose what your mortgage looks like
- Want the certainty that your mortgage payment won't change from month to month
- Want generous prepayment privileges to potentially fast-track your mortgage
- Want to integrate your mortgage with your everyday banking account
